00 HOW TO USE

How to use this tracker

Four small sections. Use the ones that fit.

This is a paper tracker, not an app. There's nothing to log into and no streak to break. Fill in whatever is useful on a given week and ignore the rest — the pages are built to work independently.

Visited Log

Every spot you've tried in The Woodlands area. One line each — name, cuisine, part of town, and a short note so future-you remembers why you loved it or didn't.

Tier List

S/A/B/C/F with five slots per tier. Fill it in by hand on the couch. Argue with yourself. Erase. Move things around.

Must-Try

A running list of places you keep hearing about but haven't gotten to yet. Cross off as you go. Star the ones you keep bumping to the top.

Monthly Favorites

One page per month. Capture the two or three spots that defined that month — a great happy hour, the brunch that got the group chat going, the taco you're still thinking about.

A LITTLE TIP

Keep this in a kitchen drawer or glove box. The best food lists get built on the drive home while the meal is still fresh — not three days later.
